

CHRISTOPHER SCHULTE

CURRICULUM VITAE

August 2017

Christopher L. Schulte is a Managing Director at 284 Partners, LLC, a professional services firm dedicated to advising clients and counsel on financial aspects of intellectual property, including valuation, litigation consulting, IP strategy, and IP transactions. Prior to joining 284 Partners, Mr. Schulte was a Senior Associate at Charles River Associates, an economic consulting firm.

Mr. Schulte has been a consultant focused on financial issues pertaining to intellectual property since 2003. His practice concentrates on the valuation of intellectual property and the determination of economic damages in intellectual property litigation. Mr. Schulte has consulted with clients regarding IP infringement damages and valuation issues associated with many types of intellectual property, including patents, trade secrets, trademarks, and copyrights. While the specific issues have varied from case to case, many of his past engagements have included an evaluation and analysis of financial and accounting data in order to quantify lost profits, reasonable royalties, price erosion, unjust enrichment, or diminished business value. Mr. Schulte has also provided analytical, strategic, and corporate finance support to clients engaged in licensing negotiations and other business transactions.

Mr. Schulte holds a BBA with an emphasis in Finance from The University of Michigan Business School (now the Stephen M. Ross School of Business), where he graduated in 2002 with high distinction. Mr. Schulte is a Certified Licensing Professional (CLP) by the Licensing Executives Society (LES), one of the nation's largest intellectual property trade associations. Mr. Schulte is a Past Chair of the *Valuation and Taxation Committee* of LES, Chair of the *CLP Appeals, Ethics, and Discipline Committee*, and Co-Chair of the *Michigan Chapter* of LES. Mr. Schulte also serves on the Editorial Board for *LES Insights*, a weekly licensing newsletter distributed to the LES membership. Mr. Schulte has also published articles and lectured about IP licensing, valuation, opportunity assessment, and damages issues.
