

**KEVIN M. ARST
CURRICULUM VITAE**

January 2018

Kevin Arst is a Managing Director of 284 Partners, LLC, a professional services firm dedicated to advising clients and counsel on financial aspects of intellectual property, including valuation, litigation consulting, IP strategy, and IP transactions.

Mr. Arst has been a consultant focused on financial issues pertaining to intellectual property since 1999. His practice concentrates on the valuation of intellectual property and the determination of economic damages in intellectual property litigation. In each of the past six years, Mr. Arst has been named one of the *World's Leading IP Strategists* by Intangible Asset Management. He recently served as an Officer for the Licensing Executives Society (LES), one of the nation's largest intellectual property trade associations. He is also a past Chair of the *Valuation and Taxation Committee* of LES. Mr. Arst is a Certified Public Accountant (CPA) licensed in the State of California and is Certified in Financial Forensics (CFF) by the American Institute of Certified Public Accountants (AICPA). He is also a Certified Licensing Professional (CLP) and holds a B.S. in Finance from Indiana University's Kelley School of Business.

Mr. Arst has provided expert testimony about IP infringement damages and valuation issues in state and federal court proceedings. His clients have included both individual inventors and multi-national corporations. Mr. Arst has analyzed financial issues associated with many types of intellectual property, including patents, trade secrets, trademarks and copyrights. While the specific issues have varied from case to case, many of his past engagements have included an evaluation and analysis of financial and economic data in order to quantify lost profits, reasonable royalties, price erosion, unjust enrichment or diminished business value. Mr. Arst has also been retained to consult in breach of contract, bankruptcy, and other commercial litigation matters and to support clients engaged in licensing negotiations and business transactions.

Mr. Arst has lectured about intellectual property damages issues on several occasions in university settings and has published articles about intellectual property licensing and damages issues in *Patent Strategy and Management* and the *Trademark Reporter*. He served on the Editorial Board for *LES Insights*, a weekly licensing newsletter published by the LES. Mr. Arst was also retained by the AICPA to write and peer-review questions for the Certified in Financial Forensics (CFF) exam about business and intellectual property valuation issues.

Before joining 284 Partners, Mr. Arst worked at Ocean Tomo and InteCap, Inc. (now Charles River Associates) as a consultant in their respective intellectual property practice areas. He has also worked in industry as a financial analyst for EDS (now Hewlett-Packard), an information technology service provider.
